

Biography

A source of all things funky, Groove Jones is a phenomenon that cannot be described by words alone. They are an eclectic band of musicians who refuse to conform to stereotypes. Funk, soul, R&B, Hip-Hop, Rock and interesting grooves that are created on the fly can be heard from the loudspeakers whenever Groove Jones is performing. Much more than just a musical phenomenon, Groove Jones knows how to bring the party, drawing the audience in every time!

Most patrons agree that consistency of music and availability of their favorite acts provides for easy decisions when choosing a club to attend. For this reason, club owners are often inclined to request Groove Jones back for repeat performances; and like any successful musical act, no two shows are ever alike and the anticipation of the next event helps maintain interest in not only Groove Jones, but the venues that they perform in as well.

Based out of York, Pennsylvania, Groove Jones currently tours the Mid-Atlantic region but has been known to venture further. Regardless of where they are, you know it's going to be a party. "Where my party people at?"
